

Elementary Parent Math Night

Please join us for an informational evening about math in the elementary grades in Edmonds School District.

Tuesday, March 11, 2008

7:00—8:30 p.m.

Terrace Park School
5409—228th Street SW
Mountlake Terrace, WA 98043

Childcare and interpreters will be provided.

Workshop Format:

Teachers will demonstrate math lessons focusing on key concepts for each grade level.

Grades will be grouped as follows:

Grades K-2—Addition & Subtraction in the Primary Grades

Grades 3-4—Understanding Multiplication Across the Grades

Grades 5-6—Understanding Fractions Across the Grades

Adult Learning Workshop Goals:

- Understand that their children are learning math in a deep, rich way that connects arithmetic and problem-solving
- Learn how to support children's arithmetic skills as well as their problem solving skills
- Experience the same type of learning that their children experience in the classroom

Sponsored by Edmonds School District #15
