

SCRIP – WHAT ONE FAMILY CAN EASILY DO

The following is an example of what an average family of four might spend in a week on food and entertainment, and how buying Scrip and using it can bring money into the school for the children of the family.

<u>What You Buy</u>	<u>How Much & Where</u>	<u>Discount</u>	<u>Profit</u>
Fri. Pizza night	Domino's Pizza \$14	25%	\$3.50
Groceries	Fred Meyer \$100	5%	\$5.00
	Safeway \$50	4%	\$2.00
Sat. Lunch out	Red Robin \$30	9%	\$2.70
Sat. night videos	Blockbuster Video \$10	7%	\$.70
Sun. afternoon treat	Baskin Robbins \$10	9%	\$.90
Totals	\$214		<u>\$14.80</u>

Now, if you expand this imagine with 25 families who participate in our Scrip program could do:
(Cedar Way serves approximately 300 families)

\$14.80 X 25 families = \$370.00 profit for one week!! Or, in the nine month school year, the potential profit could be \$11,840.00!!

\$14.80 X 50 families = \$740.00 profit for one week!! Or, in the nine month school year, the potential profit could be \$23,680.00!!

And remember 75% of the Scrip profits go toward playground equipment and 25% goes to your child's classroom.

Getting involved is easy. Scrip order forms are located inside the school's office in the front entry. Every dollar spent goes toward items your family already uses, so why not help the school out by participating. All orders can be left with the office staff or placed in the green PTO box.
